

PROFILE BRETT GOODHUE FOR AUCKLAND VICE PRESIDENT

I've been a professional firefighter now for 23 years with NZFS/FENZ and I am currently a Station Officer at Balmoral Fire Station.

I have been a committee member of the Local now for over 10 years and have represented many individuals over that time with positive results. I have also represented the Union on countless issues with Management over that time.

I have spent many years on the shop floor gaining the skills, experience and knowledge necessary to step up to a leadership role within this Union.

I firmly believe this Union needs to be modernised, the rules and voting need to be brought up to modern day and if elected, I will push for this to happen.

There are many changes coming and some big battles looming for this Union in the very near future and the members deserve representatives that are not afraid to speak up and push hard to get the results that they deserve.

I believe I'm the right person for that job.

Thanks
Brett Goodhue
